Great Family Entertainment sure to bring on a smile!

Here is a short description of Richard Paul's ventriloquist family fun show as written by one of his clients Darleen Higgins, RN Research Coordinator for Cardiovascular Research & Education Foundation, Inc. (CaRE Foundation).

“Ventriloquist Richard Paul was brought in to entertain us after dinner on the opening night of our weekend seminar for area physicians, medical professionals and their families. Of course, we expect to see the usual ventriloquist act, a guy throwing his voice with a wooden puppet. And Mr. Paul did a fine job with his wooden puppet TJ but he did a lot more than that. He performed ventriloquism with everything from his hands to everyday household object, and **brought up audience members for hilarious gags!**

Over 200 were in attendance that night, and **everyone was engaged for close to an hour with his wit, creativity, and talent in ventriloquism.** The CaRE Foundation was very pleased with the job Richard Paul did for us. If you are looking for quality, family-friendly entertainment, Ventriloquist Richard Paul is your man!”
